

SPARK Monday Spring #2 Session

Session dates: 3/4-open week, 3/11, 3/18, 3/25, 4/1, 4/8, 4/22, and 4/29-field day

10:00-10:50a

Option 1 : Skateboarding (all ages): Learn the basics of skating. No experience necessary! Each week we will build on our abilities and have fun learning together. Board, helmet and wrist guards required to participate.

Option 2: Sewing Workshop (all ages): Work on various sewing, knitting, or other textile projects together depending on individual interests.

Option 3: Game Show Sampler (11+): Try your hand at the game shows of yesterday and today. 10,000 Pyramid, Jeopardy, Minute to Win it, and more!

11:00a-12:00p LUNCH

12:00-12:50p

Option 1: Birdwatching (all ages): See the beauty and learn more about birds as we explore the habitat outside the SPARK window and at the park next door. Bring your binoculars to get a closer view !

Option 2: History Through Inventions (all ages): We will study a different century each week and find out what was invented or discovered during that time period.

Option 3: Anime/Manga Culture (11+): Study the history and culture of anime and manga by studying representative works of different periods and genres. We will discuss themes and our interests in this culture as well as the cultural and social

1:00-1:50p

Option 1: Storybook Art (all ages): Explore art through story where we will take turns bringing in a favorite storybook to read. Then create art inspired by it.

Option 2: LARP (all ages): Live Action Role Play- this is a cross between a game and a form of theater and uses a whole lot of imagination which means it is very child-led! We will create an imaginary world together with its own rules and then each design our own characters. We can wear costumes and use props from home or create them at SPARK and then all act out scenes in the world.

Option 3: Make Your Own Body Products (8+): Bath bombs, soaps, lotion and more. Explore the chemistry and the creativity behind making your own natural body products.

SPARK Wednesday Spring #2 Session

Session dates: 3/6-open week, 3/13, 3/20, 3/27, 4/3, 4/10, 4/24, and 5/1-field day

10:00-10:50a

Option 1: Skateboarding (all ages): Learn the basics of skating. No experience necessary! Each week we will build on our abilities and have fun learning together. Board, helmet and wrist guards required to participate.

Option 2: MythBusters(all ages): Every week explore a common trope from science, engineering, movies, or pop culture. We'll talk about the science/myth/story behind it and figure out for ourselves the truth.

11:00-11:50p LUNCH

12:00-12:50p

Option 1: Our Solar System (all ages): study the sun, planets, moon and build your own model solar system. Also, the Cincinnati Observatory will come do a presentation on space explorations and help us build and launch water rockets!

Option 2: Survival Skills & Saving the Planet (all ages): Learn how to survive in the wilderness and how to many ways we can help save mother earth. We will study land navigation, forage for edible and medicinal plants, learn how to make a fire, composting and upcycling.

1:00- 1:50p

Option 1: ASL (all ages): Learn an entirely different language you speak with your hands and body. We'll learn the basics, with some fun words and phrases and a little about deaf culture.

Option 2: Soccer and Field Games (all ages): We'll be outside learning and playing soccer. We'll also be mixing in some other field games, including a nerf battle!
